Summary

React.js Developer with 1+ year of experience building ERP and Admin Dashboard applications. Skilled in React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, REST APIs, and AI integration. Familiar with CI/CD, GitHub Actions, and frontend deployment. Passionate about building scalable, responsive, and user-friendly web applications.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML, CSS, Tailwind CSS
State Management: Redux Toolkit, Context API
API & AI Integration: Axios, REST APIs, OpenAI API, Gemini API
Performance: useMemo, useCallback, Lazy Loading
DevOps & Deployment: GitHub Actions, CI/CD, Vercel, AWS S3 (Basics)
Tools: Git, GitHub, VS Code, Postman, Cursor AI

Experience

Nonostack Pvt Ltd

October 2025 – September 2026

React Developer

Project: Adam ERP (Enterprise Resource Planning System)

Tech Stack: React.js, Redux Toolkit, Axios, REST APIs, Formik, Tailwind CSS

- Developed scalable ERP modules using React.js, Redux, and REST APIs, handling complex business workflows
- Integrated and managed 100+ REST APIs using Axios with interceptors, ensuring secure, efficient, and scalable data communication across ERP modules
- Implemented global state management using Redux, improving data consistency across multiple modules
- Optimized application performance using useMemo, useCallback, and lazy loading, reducing unnecessary re-renders
- Built and validated complex forms using Formik, including proper form state management and validations.
- Collaborated closely with testers to identify UI and functional issues, and fixed bugs reported during QA cycles.
- Worked with backend and QA teams to ensure smooth API integration, data consistency, and stable feature delivery.

Project: Edushala Admin Dashboard

- Built a responsive Admin Dashboard using ReactJS and Material UI.
- Implemented role-based authentication (Super Admin, Admin) with token and refreshToken management.
- Configured Axios Interceptors for automatic token handling in API requests
- Created permission-based dynamic routing and reusable UI components with Material UI

Projects

Portfolio | [Link](#) | *Reactjs, Tailwind CSS, EmailJs*

- * Built a responsive personal portfolio using ReactJS and Tailwind CSS
- * Showcased major projects, skills, and experience as a frontend developer.
- * Implemented EmailJS for live contact form submissions without backend code.

AI-Powered Study Assistant | [Link](#) | *Next.js, TypeScript, Tailwind CSS, MongoDB, Gemini AI, Vercel*

- * Developed an AI-powered study assistant using Next.js and TypeScript to help users organize study materials and improve learning.
- * Implemented notes management with CRUD operations and MongoDB Atlas for persistent data storage.
- * Integrated Gemini AI to generate study summaries, key points, and AI-powered quizzes from study materials.
- * Built Next.js API routes using Mongoose to handle backend operations and database interactions.
- * Designed a responsive user interface using Tailwind CSS and deployed the application on Vercel.

Education

BTech (Electrical and Electronics)

Sagar Institute of Research and Technology Bhopal

Graduated: 2025

CGPA: 7.34 / 10
